MYSTERY ENVELOPES AT SR GEORGE BUSH FUNERAL WHY DID MIKE PENCE GET ONE?

Do you remember those envelopes that were passed out at the Bush Sr. funeral?

I want to go back and look at those again.

Do you remember how these really weird envelopes were passed out at the funeral and only certain Deep State cabal members got one?

Right-wing conspiracy theorist and radio host Dave Janda appeared on Greg Hunter's "USA Watchdog" program last week, where he declared that the nomination of William Barr to the position of attorney general is confirmation that former president George W. Bush has "flipped" and is now working with President Trump to take down the "deep state" in exchange for protection for his family.

While promoting the right-wing conspiracy theory that the Obamas, Clintons, and various other high-ranking officials who attended the funeral of former president George H.W. Bush last month received mysterious envelopes hidden in their programs, allegedly informing them that they are under indictment, Janda asserted that George W. Bush met at the White House with Trump the day before the service to cut a deal to reveal what he knows about the deep state's involvement in everything from human trafficking to drug running..

In the latest drop we get a possible reason why Vice President Mike Pence and his wife Karen received an envelope at George Bush's funeral last year and why Lt. Gen Michael Flynn was set up by the FBI.

The link to a Sara Carter story shows additional texts between disgraced ex-FBI Special Agent Peter Strzok and his lover ex-FBI Attorney Lisa Page attempting to develop and inside the White House spy during the Trump transition team after the 2016 election.

In quite an extensive article Carter lays out what Strzok and Page had in mind.

Pence's chief of staff in the early days of the Trump Administration was Josh Pitcock. Pitcock was married to Katherine Seaman. Seaman worked for the FBI and prior to the election worked with Strzok and Page on the Hillary Clinton email probe.

This is why they call it the swamp. The connections are so rife with married couples seldom taking the same name in order to obfuscate the connections.

As you can see above Karen Pence like all the other wives at the Bush funeral received a note inside their programs. Also note behind Pence and to his left a Secret Service agent is monitoring his reaction while the Veep sits directly behind the President.

What the notes contained has never been divulged the reactions by the recipients was not joyous, in fact horror and/or dread was seen on many of the faces after reading the notes. (Please read this post to get the full story.)

My high-octane speculation is that Trump's intelligence team discovered that Pence knew about Pitcock's activities of spying on the newly elected president and Pence may have also agreed to help Deputy Attorney General Rod Rosenstein with his case of Trump being unfit to serve making Pence president under the 25th Amendment.

I believe Lt. Gen Flynn, Trump's original NSA Director, has all the details on Pence, Pitcock and Seaman but had his legs cut out from under him by the FBI when Strzok and another agent interviewed him without a lawyer about speaking to foreign officials during the transition.

The FBI had tapes of Flynn on a phone call with the then-Russian Foreign Minister and when Flynn could not recall the exact details of the call the FBI charged him with lying.

This was to disgrace Flynn and keep the Pence spying information a secret. But it did not work.

So why did Pence get one?
