Senate Republicans made a shocking discovery and have sent a letter to Department of Justice Attorney General William Barr to get to the bottom of it.

FBI lovers Peter Strzok and Lisa Page worked to get sources in the administration of President Donald trump to spy on him.

And according to the information obtained by the One America News Network and reporter Jack Posobiec they found two.

And the two they found were shocking. Posobiec reported that former Chief of Staff for Vice President Mike Pence, Josh Pitcock ad his wife were the spies.

“I was deeply offended to learn that two disgraced FBI agents considered infiltrating our transition team by sending a counter intelligence agent to one of my very first intelligence briefings only 9 days after the election,” Vice President Pence said in a statement to Axios.

“This is an outrage and only underscores why we need to get to the bottom of how this investigation started in the first place.

“The American people have a right to what happened and if these two agents broke the law and ignored long-standing DOJ policies, they must be held accountable,” he said.

Pitcock issued his own statement in which he denied being a spy from Strzok and Page and denied knowledge of the scheme.

“My wife and I have served our nation in different capacities for more than a decade. I worked for Mike Pence, and she continues to work for the FBI.

In the summer of 2016, Mike Pence was picked by Donald Trump to be his Vice Presidential-nominee. Up until that time my wife had been working on the FBI counter-intelligence investigation of Hillary Clinton's email server.

“However, when Mike Pence was chosen as the VPnominee, she was recused from all work touching on the 2016 presidential campaign or candidates. Her recusal continued after the campaign ended, through the Transition and during the Administration, and she was not a part of any counter-intelligence division activities having to deal with Russia or the President.

“With regard to the reference in the texts between Peter Strzok and Lisa Page about ‘Katie’s husband,’ to be very clear, I have no knowledge of what Strzok and Page were discussing or why.

“I had no contact with either Strzok or Page during the 2016 campaign, the Transition, or while serving at the White House. I took zero actions on their behalf.

“There was no infiltration through me or my wife. Any assertions or speculation to the contrary is unfounded, uninformed and 100% false.

“During the entire time I worked for President Trump, Vice President Pence and their Administration I was 100% loyal, dedicated and determined every day to do my best to advance their agenda.

“My wife is a dedicated professional who loves the Bureau and her country. That she has been named publicly and subjected to scrutiny and false allegations when she did nothing wrong is unconscionable,” he said.
