

Former Pfizer VP Destroys Media Hit Piece Attacking His Warnings About COVID Injection: 'A Pack of Lies'

 newswars.com/former-pfizer-vp-destroys-media-hit-piece-attacking-his-warnings-about-covid-injection-a-pack-of-lies

Former Pfizer Vice President and Chief Science Officer Michael Yeadon obliterated a *Reuters* hit-piece “fact check” on him from earlier this year, calling their efforts to smear his claims about COVID-19 and the vaccines “a pack of lies.”

The *Reuters* article from May, called “Fact check: Ex-Pfizer scientist repeats COVID-19 vaccine misinformation in recorded speech,” called Yeadon an “anti-vax proponent” who “has made unfounded claims” about the health risks associated with the COVID mRNA vaccine.

The article concluded that “infected but symptom-free people can spread the coronavirus; vaccinated people are better protected but not 100% immune; research shows COVID-19 vaccines are safe and effective for adults and pregnant women.”

In a June interview with America’s Frontline Doctors (AFLDS), Yeadon methodically broke down *Reuters*’ bad-faith “fact check” about him point by point.

“The narrative statements that have repeatedly been claimed by the authorities which are a pack of lies are:

“1. *Asymptomatic transmission*. It’s definitely a lie. Have you seen that video where Fauci states that ‘it’s always a symptomatic person who drives an epidemic and never people without symptoms’?”

“A WHO doctor said exactly the same thing.

“There’s also a terrific peer-reviewed journal article showing that domestic transmission in asymptomatic cases was effectively zero.

“All marries up with the statements I’ve made, and with biological logic,” Yeadon added.

“2. *Variants*. They’re just being idiotic. I can show several good quality papers demonstrating that T-cells from a convalescent person or an immunized person each recognize all the then-available variants, again, as anticipated by fundamentals of immunology. The weak twaddle in their piece about antibodies is risible.

“3. *Vaccines*. The bastards are actually claiming they’re safe. Got them. We have VAERS, Yellow Card, and EMA monitoring. We have mechanism of toxicity. We have multiple open letters to EMA (warning of blood clots) which were immediately followed by vaccine withdrawals (for blood clots).

“4. *Pregnancy/fertility*. No one in their right mind thinks giving experimental treatments to pregnant women is other than reckless. Especially when reproductive toxicity testing is incomplete.”

Yeadon didn’t stop there. He also addressed two glaring disclosures about the COVID injection that have been completely ignored by the media and medical establishment.

“But on top of this stupidity, are two recent public disclosures: (I) the distribution of vaccine to tissues in mice shows a very disturbing concentration into ovaries,” Yeadon said. “No one has followed it up, so the assumption has to be this is happening in humans too.”

“(II) our concern expressed in the December 2020 petition to EMA about immune cross-reactivity between spike protein and human syncytin-1 has been confirmed. A paper was very recently published showing young women making antibodies to syncytin-1 within days of vaccination.”

Yeadon concluded his rebuttal by pointing out that governments around the world have “lied and lied” about coronavirus spread and the risks posed by the COVID injection in order to economically destroy nations to consolidate power.

“Of course this is wholly fraud. Imagine that the number of people in U.K. who’d actually been killed by the virus, instead of dying with it, was just a couple of thousand; you’d been on the streets with torches and pitchforks,” Yeadon told AFLDS. “You should be. Governments everywhere have lied and lied and lied about every one of the central narrative points about this virus.”

“The effect of compliance with their ludicrous policy responses has been to hollow out and arguably to have destroyed economically several G20 countries, and actually increased the number of avoidable deaths, not least by deprivation of healthcare.”

“These people all need locking up in that new high-security facility being built at speed at Wellingborough, Northants,” the former pharmaceutical executive continued. “The *prima facie* case against a dozen or so people in U.K. warrants their arrest pending criminal prosecutions.

“If these figures are of the same order of magnitude for other countries as well, and there is no reason to assume otherwise, then the plague is a deception of unprecedented proportions, and crimes committed against humanity on a huge scale have been committed here,” he concluded.

Yeadon likely drew the attention from Reuters in the first place after coming out against the COVID-19 shots in April, claiming they likely are being used for a “massive-scale depopulation” agenda.

“That’s what I would do if I wanted to get rid of 90 or 95% of the world’s population. And I think that’s what they’re doing,” he said.
